

HYFLEX SKILLS

A TRAINING PROGRAM
DESIGNED FOR SCHOOLS
**QCE CREDITS WITH
CONFIDENCE!**
SECURING STUDENT SUCCESS
SKILLING FOR THE FUTURE!

PROGRAM OVERVIEW

Skills Generation is proud to offer Queensland High Schools a unique work skills program, designed specifically for high school students. HyFlex Skills provides Schools with an innovative training alternative that supports student success and provides a pathway to formal Certificate II level qualifications and QCE credits.

HyFlex Skills is designed for students in Years 10 - 12 and enhances the student experience and success rate by:

- Providing an alternative pathway to accredited Certificate II qualifications and additional QCE credits
- Facilitating career development by enabling Schools to easily incorporate industry-specific pathways into classroom lesson plans
- Supporting an inclusive and self-paced learning environment aligned with the Queensland Department of Education and Independent Schools models of effective Learning and Wellbeing Frameworks
- Incorporating interactive and engaging learning resources that encourage active student participation

Courses available in the HyFlex Skills Training Program:

- **BSB20120 Certificate II in Workplace Skills**
- **ICT20120 Certificate II in Applied Digital Technologies**

HOW THE PROGRAM WORKS

This innovative program for Schools supports students and high schools through:

- an interactive online self-paced and self-assessing learning platform
- introducing an adaptable model that provides an additional pathway to QCE credits
- providing training in skills areas preparing students for the future workforce
- providing curriculum-based Learning Bytes focused on planning, prioritising, achieving, and reviewing

The HyFlex Skills learning platform delivers learning and teaching resources online via Learning Bytes and Supplementary Assessments. Learning Bytes are engaging, self-assessing training modules. Schools receive weekly reports on student's progress. Teachers have a supervisory role and complete third party observation reports on student performance in Supplementary Assessments.

COURSE FEES

This is a Fee for Service qualification.

Courses are \$850.00* per student per qualification. Ideal as a senior student solution for schools, talk to us about concessions that may apply for enrolling year-level cohorts.

ABOUT HYFLEX SKILLS COURSES

BSB20120 Certificate II in Workplace Skills

A course sitting in the Business Services Training Package, HyFlex Skills Learning Bytes and Supplementary Assessments focus on introductory career and workplace skills that can be applied across a wide variety of business environments. Students gain knowledge and develop skills for Business that prepare them for entry to the workforce. The broad skills delivered in this course are valued by employers seeking to recruit new staff for entry level roles in businesses across a variety of industry sectors.

- Critical thinking and problem-solving in the workplace
- Supporting personal wellbeing in the workplace
- Sustainable work practices
- Planning and applying time management
- Operating digital devices
- Delivering services to customers
- Working effectively in business environments

ICT20120 Certificate II in Applied Digital Technologies

HyFlex Skills Learning Bytes and Supplementary Assessments focus on introduction to Digital Technologies that can be applied in a wide variety of business settings. Students gain knowledge and develop the skills to use essential applied digital technologies in varied contexts, transferable to workplace settings in a wide range of business environments and industry sectors.

- Participating in sustainable and diverse work practices
- Using digital technologies to communicate in a work environment
- Using computer operating systems and hardware
- Operating application software packages
- Operating digital media technology packages
- Cyber Security

THE BENEFITS

- Ideal option for students who may be falling behind on gaining their REQUIRED 20 QCE credits in Year 12
- Designed to manage large cohorts of students at any one time, HyFlex Skills is an ideal back-up solution for future school closures resulting from COVID-19 or other events
- No lesson planning needed. Teachers take on a supervisory role and complete third-party observation checklists for the Supplementary Assessments on supplied templates
- Courses provide students with valuable career skills and insight in their chosen industry areas
- Flexible program supporting schools to develop industry-specific pathways within classroom lesson plans
- Introduces students to online VET study, develops confidence and self-esteem
- Supports early intervention and wellbeing for students at risk through an engaging program that incorporates future pathway planning
- Skills Generation is a highly regarded Registered Training Organisation with extensive experience and a proven track record of successful partnerships with Secondary Schools and students
- WE ARE COMMITTED TO YOUR SUCCESS!
